Music by RICHARD RODGERS

All we know is that according to mounting evidence, next time you're sending someone a personal playlist, you may also be sending them a window into your mind. For an artist to make the Top 40, he or she needs to have high radio plays. Learn to play it, and people will feel a strong attraction towards you. Learn Gymnopedie No. 1 (this is a premium song) Forrest Gump Main Theme This is a beautiful piece of music from a beautiful movie. Billboard Hot 100 The Billboard Hot 100 is published weekly by Billboard magazine. For instance, if an album charts on January 27, it's total number of listens will be from the January 12-January 18 tracking week. Sales and Streaming While album sales are dropping in recent years, the use of streaming services is rising. There is existing scientific evidence that suggests classical music can boost brain power. It's not all bad though! According to North's investigation, pop fans also have high self-esteem, as well as being hard-working and outgoing. Classic Rock The Beatles are currently Spotify's top classic rock artists of 2016. But according to research, song lists can give us a lot more than a mere glimpse into which tunes have gone viral this year. A three-year investigation carried out by Dr. Adrian North of Curtin University, Australia, correlated the music preferences and personality traits of over 36,000 volunteers. However, North's paper does draw a direct correlation between musical listening habits and the behavioural traits mentioned. Often, the artist with the top-selling album is different from the artist with the top-selling single on the Billboard Hot 100. I have heard people say that they cry each time they listen to this melody. One, however, was listening to classical music throughout and the other had no music on. The students were tested on the material of the lecture afterwards. But with these five songs you are already well equipped to serenade your sweetheart! A rite of passage for musicians is having a song on the top 40 hits radio chart. Sometimes it results in equally intense, almost tribal-like, rivalries. I've

made a light-hearted list of songs that you can learn to test this out for yourself.“Comptine D'un Autre Été” by Yann TiersenThis piece is from the movie “Amélie.” The Hot 200 Albums is released each Friday which is also the global release date for most new albums. It certainly makes you feel a particular melancholy, or bitternessweet happiness. Some even say this is the ultimate song to play to make somebody fall in love with you.Learn River flows in you (this is a premium song)“Una Mattina” by Ludovico EinaudiThis song is known from the movie “The Intouchables.” But it was actually written long before the series did! A wonderful sentimental song, it’s able to melt melts hearts everywhere.

- Justin Bieber, meanwhile, maintains his position as one of the most streamed artists this year. His attempts at breaking out of teen pop into a more rough-hewn gangster persona may have swayed some, but for those who categorise his music as pop, it is associated with low creativity and nervousness. The data analytics company Nielsen tracks what people are listening to every week in 19 different countries and compiles the information for Billboard music charts.Mainstream Top 40The top 40 hits are pulled by the Hot 100 list published weekly by Billboard magazine. Not quite, it’s Spotify’s list of the most listened to songs of 2016. MORE FROM QUESTIONSANSWERED.NET We'll leave you to decide if it's a good or a bad thing. They're also the most selfish according to the results. You can also view the top played songs on the radio, top streaming songs, top digital song sales and top hits of the year.Hot 200 Albums ChartThe Hot 200 Albums Chart tracks the top-selling albums of the week.

- Folk, Jazz, BluesOlder styles such as folk, jazz and blues are, perhaps unsurprisingly, associated with deep thinkers, the genres being a staple for this years surprise Nobel literature prizewinner, Bob Dylan.Classical musicClassical music lovers are also considered to have high intelligence, high self-esteem and are more likely to be introverted. According to the researchers “students who heard the music-enhanced lecture scored significantly higher on the quiz than those who heard the music-free version.”So educators can help students absorb information “by turning to some old friends: Beethoven, Bach, and Tchaikovsky.”

- Music can also apparently make you a better person. Similarly, psychology specialists pointed out that crime and drop out rates decreased a decade ago in Venezuela when music lessons were made mandatory in schools.Musical preference has always been a source of intense emotions. The study’s findings revealed that those who listened predominantly to a specific genre were likely to have certain personality traits associated with that style of music.So if you’ve ever felt an instant connection to someone because of the music they like, or if you’ve gone the other way and cringed when someone told you what their favourite song was, don’t worry, you’re not alone. Many people say this is one of the most beautiful songs they have ever heard. If Bon Jovi and the Beatles can both be classified as classic rock though, that’s a pretty wide-ranging genre right there!Indie RockIndie rock fans, who sometimes get a bad rep as hipsters, are vindicated by the findings, which suggest they are creative and open to new experiences. If you also play the piano, you probably already know that there's no faster way to win someone's heart than playing them a beautiful song. Playing a music video on YouTube also counts as a song play.

- Not only is classical music associated with smarter people, it is also associated with actively making us smarter. Kanye West is certainly prone to it. As one YouTube comment puts it: "On this Valentine's Day (2015) I kissed a (fantastic) girl with all my heart while this music was playing..." Do we need to say more? Whether it's Blur vs Oasis or Kanye vs everyone, people may enjoy both but they'll never concede that the other's better than their favourite. Music consumption is up, but music sales are down.RadioThe biggest AM/FM radio in the world is iHeartRadio. According to North’s research, hip-hop fans are extroverted and have high self-esteem. There is a flipside, however, as they have a low self-esteem and work ethic. Radio: Once a song becomes popular enough to be picked up by radio stations, it can gain a lot of traction and earn a spot on the Billboard Hot 100. Whenever you see a piano, play this song. Like magic, the hearts of the people around you will open up.Learn Comptine D'un Autre Été (this is a premium song)“Gymnopédie No. 1” by Erik SatieThe name of this song might sound strange, but don't let it fool you. Nielsen tracks radio stations all over the country and measures what songs are being played. In recent years, audio- and video-on-demand streaming services have set record highs for streams. Streaming music: The number of plays on online radio stations like Pandora, Spotify, Apple Music, Yahoo Music and AOL Music are counted toward the total number of streams.

- What can Spotify's 2016 top-streaming list tell us about people's behaviourHip HopWell, Drake tops the list for most-streamed artist of the year. Playing “Una Mattina” certainly creates the perfect atmosphere for a first kiss.Learn Una Mattina (this is a premium song)We can't predict whose hearts you will win.....but it is definitely worth a try.Of course, there are many other songs that'll charm audience. Though these genres are practically non-existent on Spotify's most-streamed list of 2016, they're undeniably present in spirit, modern artists borrowing heavily from the styles.It's a bit farfetched perhaps to think that a song list can give us a really profound insight into human behaviour. Its tagline was “How to make her fall in love with you.” I couldn't resist clicking and was confronted with the usual “just-be-yourself” advice.If you're like me, you probably like to think of more fun answers to such serious questions. You can watch the music video and listen to almost every song directly on the Billboard website.In addition to the Hot 100, Billboard also tracks the Billboard 200 and the Artists 100. Satie's “Gymnopédie No. 1” is one of the most powerful classical piano pieces. Thanks to its relaxing and atmospheric melody, listening to this piece feels a lot like floating through space. Radio is still the most popular way to consume music. There are a number of factors that determine whether a song makes the top 40 list. North's study claims that classic rock fans are easygoing, though there's a caveat. To track sales and streaming, the Hot 200 Albums Chart schedule is delayed by a few days to encompass a full week of sales. An experiment was carried out in which the exact same lecture was given to two group of students. You should definitely learn this piece and keep it in your repertoire.Learn the Forrest Gump Main Theme (this is a premium song)“River flows in you” by YirumaThis song became famous after featuring in the Twilight movies. They're less likely to want to sit in their bedrooms poring over the sleeve notes, a pair of headphones shutting out the outside world.RapAnother University of Texas study suggested that rap listeners are liberal, tend to perceive themselves as attractive but are also prone to 'lirtatiousness', which is best described as saying what's on one's mind as soon as it comes up. The other day, I was scrolling through my Facebook feed and stumbled upon an article from a famous online magazine. It's a list of the most popular 100 songs in the U.S. Billboard also tracks whether a song is higher or lower on the charts each week, its peak position and its total weeks on the chart. A University of Cambridge study recently highlighted a link between musical learning and enhanced emotional intelligence. This information helps Billboard track the top songs in the country.

"Under Pressure" is a song by the British rock band Queen and singer David Bowie. Originally released as a single in October 1981, it was later included on Queen's 1982 album Hot Space.The song reached number one on the UK Singles Chart, becoming Queen's second number-one hit in their home country and Bowie's third, and also charted in the top 10 in more than ten countries. "Cardigan" (stylized in all lowercase) is a song recorded by American singer-songwriter Taylor Swift. It was released as the lead single of her eighth studio album, Folklore (2020), on July 27, 2020, via Republic Records.Written by Swift and its producer Aaron Dessner, "Cardigan" is a slow-burning, folk, soft rock, and indie rock ballad, with a stripped-down arrangement of a tender ...
